

SPONSOR WITH US!

Since 2016, Preventive Measures has walked to raise awareness of the urgent need for mental health support. In 2022, The Preventive Measures Foundation took the lead in continuing this mission. With the growing mental health crisis, ground-level support is more critical than ever, as mental wellness goes well beyond therapy. Food insecurities, abuse, and lack of resources can impact entire communities. When our fundamental needs go unmet, it becomes even more challenging to thrive. Your sponsorship will drive *real* impact, providing holistic, wraparound support for true mental wellness. **Will you join us?** Scan the QR code or visit bit.ly/mhawalksponsors to become a sponsor.
